Accessing PCA Executive Reports

PCA Executive Reports is a live, web-based application that can be accessed from any web browser on any computer, tablet, or phone. It is a continuously updated data tool that is customizable to fit user needs.

Follow the link above to access the home page.

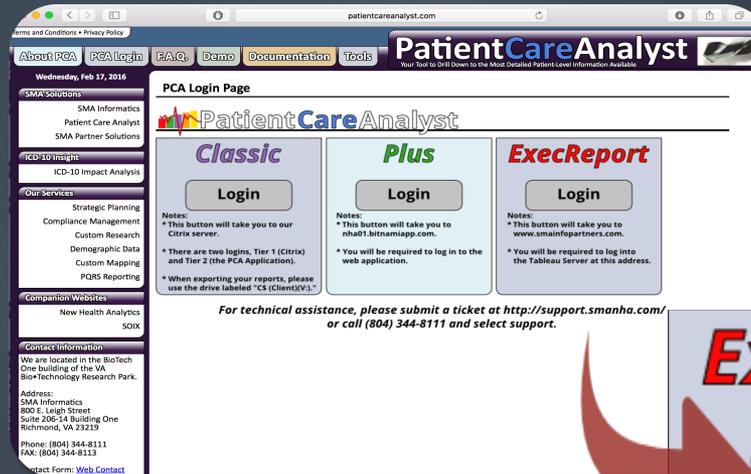

1

Click the “PCA Login” tab at the top left of the screen.

2

Click the gray “Login” button in the light blue PCA Plus box.

ExecReport

Login

Notes:

- * This button will take you to www.smainfopartners.com.
- * You will be required to log into the Tableau Server at this address.

3

Enter your Username and password. Click Sign In.

Password

Sign In

Note: Upon becoming a PCA Executive Reports customer, you will be given a Username and temporary password, which you will reset at first login.

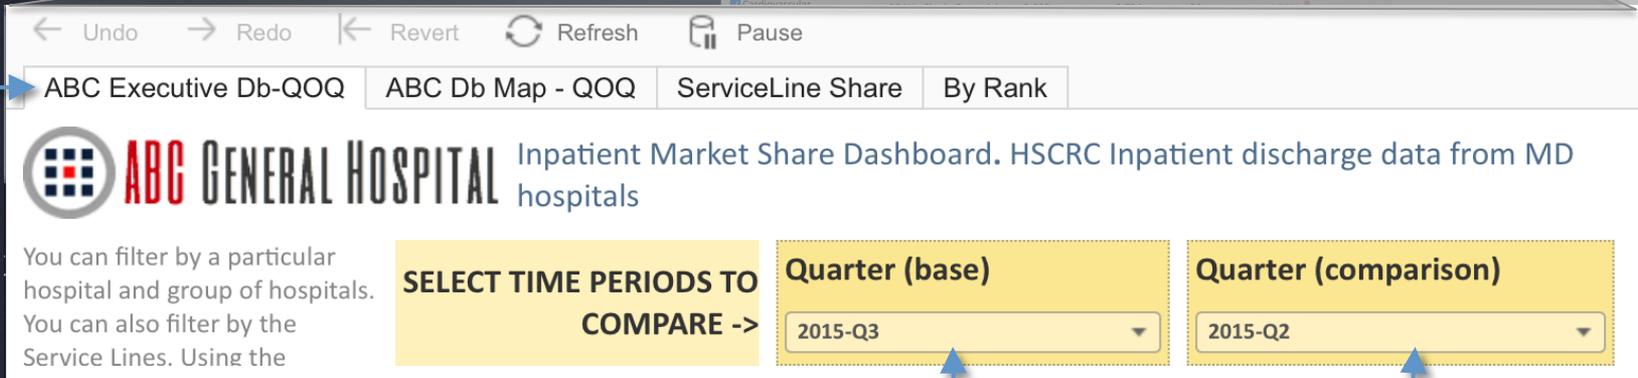

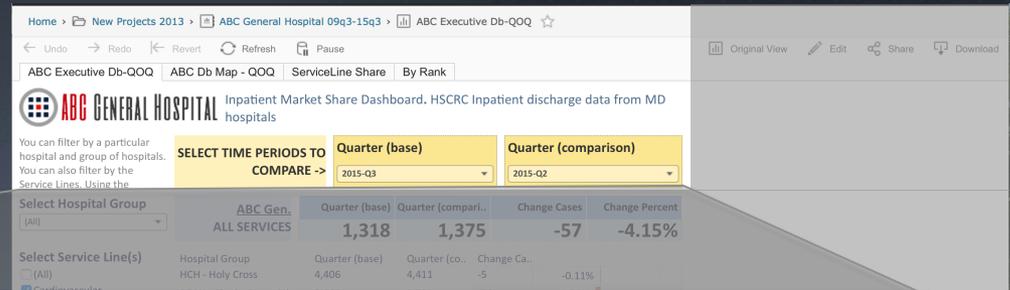

4

You will now see your customized PCA Executive Reports dashboard!

Note: Your dashboard may look different, depending on your client agreement.

Layout Tour

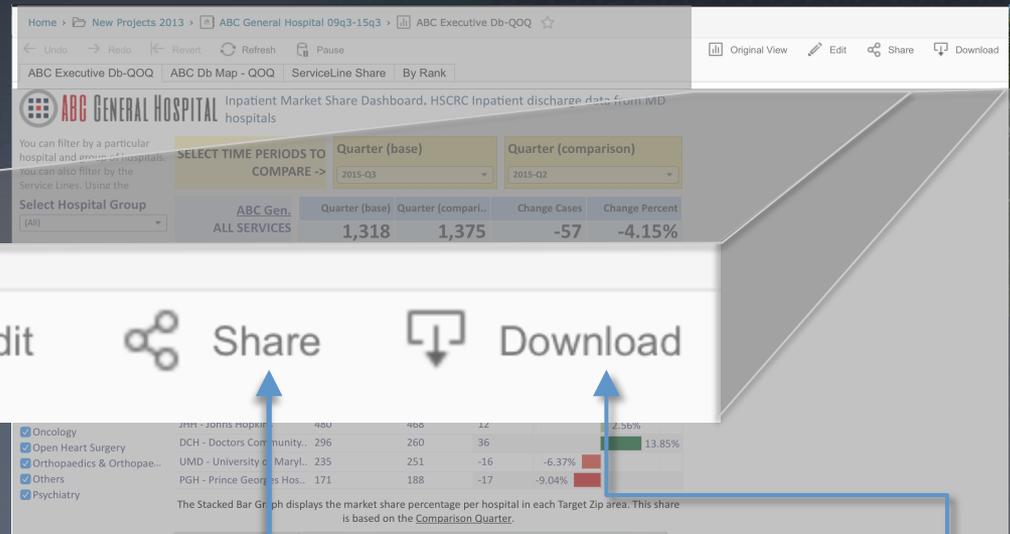

The tabs along the top of the page display different dashboard pages. Click each tab to view the sheets.

Each tab may have different features and visuals, created by NHA based on your needs.

With Executive Reports, user can select one time period to compare with another, or simply view the data for on by selecting the same quarter in both boxes.

By using this dropdown menu, the user can filter which hospitals or hospital groups to view on the dashboard.

To determine which hospitals are shown in this list, NHA typically uses primary and/or secondary service areas. This can be customized to your needs.

The user can also filter the service lines for which data will be shown by checking and unchecking the boxes.

Service Lines can be customized to each client. NHA will work with you to determine which service lines you want to see on your dashboard and which DRGs are included.

Executive Reports: User Options

In addition to the numerical data display as seen on the previous slides, PCA Executive Reports uses various graphic options from Tableau, a data visualization software, to make the data more visually appealing, understandable, and comparable.

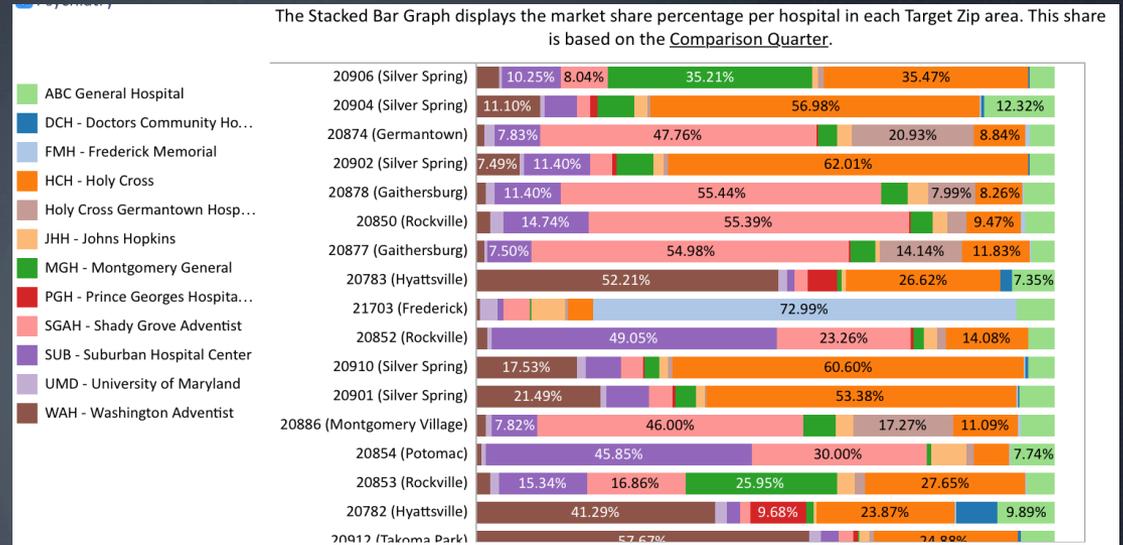

Graph displays can be chosen and customized based on what the user would like to see on the dashboard. They can be placed on the homepage, or designed as a separate tab.

Executive Reports: User Options

Tableau graphic options for PCA Executive Reports can include:

Market share display

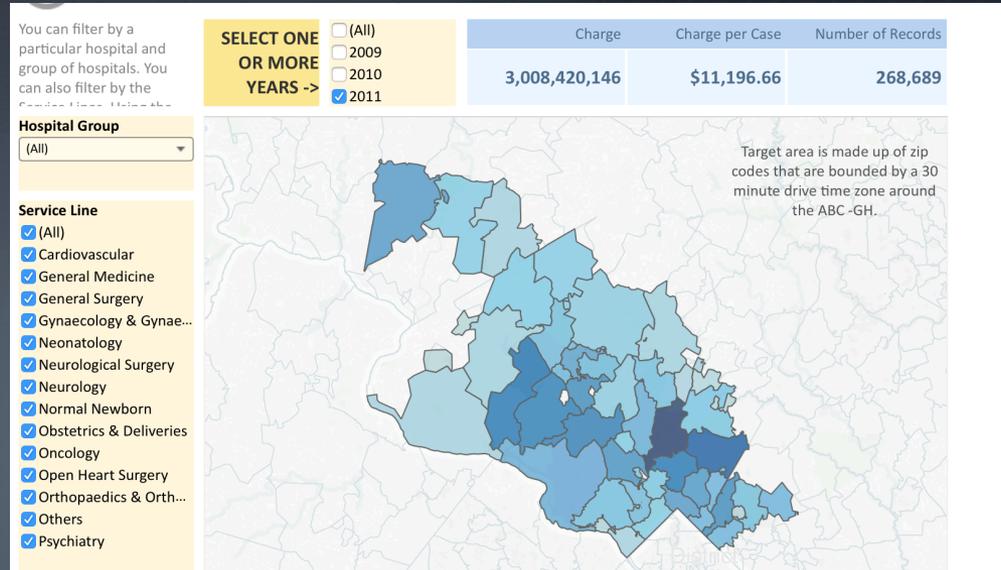

- By target zip
- By service line

Executive Reports: User Options

Geographical Display

- By zip code
- Shading based on number of cases, charges, etc.

Charges Display

- Total and per case charges
- Compared with other providers

Hospital Group	Charge per Case		
HCH - Holy Cross	\$8,877	71,258	632,574,697
